TECHNICAL SALES ENGINEER:

Related to the high performance cutting tool industries our customers require high quality products within their facilities. Action Super Abrasive is proud to be their partner and contribute to their success by developing, manufacturing and optimizing Diamond and Borazon wheels as well profiling machines to satisfy in our customer's wishes.

Currently we are looking for a full time, enthusiastic and motivated person, male or female, to provide service and support, to our customers in the Region of South Europe (Italy, Spain, ...).

YOUR PROFILE :

- Independent, representative, self-sufficient and located in Italy.
- Graduated from a technical / mechanical field with good business knowledge.
- Experience in the field of tool grinding is plus.
- Good knowledge of Fanuc controls.
- Native language Italian, English proficiency minimum level B2, Spanish is plus.
- Experience with MS Office (Outlook, Excel and Word) and ERP systems.
- Dynamic, flexible and organized in dealing with our valued international clients.

YOUR MISSION :

- Processing of customer requests and participation in development of offers.
- Follow up customer requests from quotation until product performance.
- Installation, training and support from our profiling machines.
- Technical follow up during testing from new products at our customers.
- Handling and solving customer technical problems.
- Maintaining contacts and solution-oriented thinking with our customers and team in Switzerland.
- Constant Management Customer portfolios.

Does this vacancy appeal to you and do you think you can add value to our team?
